Jammu, J&K, India

Software Engineer with hands-on experience in **integrations, APIs, and enterprise collaboration platforms**. Skilled in **user research**, **data-driven problem solving**, building **automated dashboards**, and developing **application bundles** that extend platform functionality. Looking to leverage technical expertise and **customer-focused thinking** in a product management role.

Experience

Associate Software Development Engineer — Jul 2024 - Present
Autodesk - Engineering Collaboration Services — Bengaluru (Hybrid)

- Worked on POCs and **end-to-end integrations** of Jira with **enterprise platforms and 3rd party applications** (ServiceNow, Wolken, Power BI, Faros, Jade, Microsoft 365, **Enterprise Search**, internal data lake, etc.), enabling internal users to access their data with greater ease and efficiency.
- Conducted **30+ user interviews** to capture user pain points, mapped **end-to-end user journeys**, and created **personas** to guide product improvements.
- Designed and executed a POC to identify open Jira projects and currently driving the **end-to-end solution** — including **project planning, story creation**, and coordination with management on status updates.
- Contributed to the retirement of redundant plugins and applications, saving up to **$100,000 annually** in infrastructure and licensing costs.
- Worked on **application bundles that extend the functionality** of collaboration tools, authored UAT documentation and supported project onboarding, provided **L3 support** to users, effectively handling escalations.
- Executed POCs to **classify data** stored in Confluence and to **scan for sensitive information** (e.g., secrets, PII), ensuring 100% accuracy in detection.
- Extracted Jira production data for the FY25 R&D Tax Credit audit, enabling tax savings close to **a million dollars**.

Data Analyst Intern — Jan - Jun 2024
Autodesk - Engineering Systems Services — Bengaluru (On-site)

- User Behavior Analysis for Jira – Researched and analyzed Jira user/system activity from access and audit logs, building **automated Power BI dashboards** that enabled managers to make **data-driven adoption decisions** and ensuring 100% of issues were identified for remediation.
- License & Usage Analytics – Automated license tracking and developed dashboards (onboarding, usage, and **demand forecasting**), giving managers clear visibility into utilization and enabling accurate estimation of additional licenses required across Jira, JSM, and Stoplight.

Research Intern — Dec 2022 - Mar 2023
International Collaboration — Remote

- Umeå University – Academic research on spatiotemporal data using time series forecasting models to identify patterns and predict urban anomalies, implementing Moving Block Bootstrap + Holt-Winters methods, presented at IEEE Big Data 2023.
- Dongguk University – PCOS detection using ensemble of ML models, achieving 84.3% accuracy through a data-driven approach, presented at MoSICom-2023.

Skills

Product & Strategy: User Research, User Personas, Journey Mapping, Roadmapping, KPI Tracking & Reporting, Presentation & Storytelling, Usability Testing, User Acceptance Testing, Lean, Agile (Scrum/Kanban), MVP, Wireframes

Data & Analytics: Dashboarding, Analytics, SQL, Statistics, Data Visualization Libraries (Numpy, Pandas)

Integrations & Engineering: REST APIs, Authentication, Python, Databases, Version Control with Git, AWS Cloud, AI Fundamentals, API Testing, CI/CD

Tools: Atlassian Suite (Jira, Confluence), Splunk, Dynatrace, Snowflake, Stoplight, Mural, HC-Vault

Education

B.Tech Computer Science & Engineering | NIT Srinagar — **CGPA: 9.64/10** | 2020-2024

- Graduated in the top 1% of class; served as Departmental Undergraduate Committee Student Representative.
- Undergraduate student researcher with publications: Presented a paper at MAiTRI 2023 and published a paper in Computational Intelligence journal.

Volunteering

- Member, Employee Resource Groups at Autodesk (Asian Network, MIND Network, Pride Network, Young Professional Network) – Active participant in diversity and inclusion initiatives.
- Member, Ek Bharat Shreshtha Bharat (EBSB) Cell, NIT Srinagar – Helped in the organization of various discussions and cultural events.
- Member, Agri-robotics Workshop Organization Committee, NIT Srinagar – Helped organize the workshop, the first of its kind in Kashmir valley, and conducted a hands-on session on the basics of ML for first-year students and government institution participants.
